PROFESSIONAL INSTALLATION

Your car is fitted with a monitoring device by professionals, so you can't tell the vehicle has been fitted with a tracker

EVERY VEHICLE IS AT RISK, NO MATTER WHERE IT IS PARKED, HOW SECURE THE LOCATION OR WHAT TYPE OF MOTOR VEHICLE.

VEHICLES CAN BE STOLEN FROM HOMES, OFFICES, WORKSHOPS, and often a perpetrator will steal the keys to the vehicle so that they don't need to break into the vehicle to steal it.

IN AUSTRALIA, A MOTOR VEHICLE IS STOLEN EVERY SIX MINUTES.

PEACE OF MIND

Knowing you can locate your vehicle at anytime 24/7 from anywhere in the world. Monitor authorised and unauthorised vehicle usage

TRACK YOUR BUSINESSES FLEET OF VEHICLES

If you own a fleet of vehicles, having car trackers in them would be very handy for business. You can monitor your drivers to ensure that they are following the right routes and not abusing the vehicles. This will ensure that your business is not losing money because of drivers taking long routes or making unauthorized stops. You will know where they are at all times and monitor their activities accurately.

REDUCE YOUR CAR INSURANCE

Having a tracker in your vehicle will help to reduce your monthly insurance premiums. This is because you will be less likely to need to claim for a new vehicle after it has been stolen as you are likely to recover it soon.
